12. In the background of what has been noted above, we state that the following would be kept in mind while dealing with the claim of trainees to get employment after successful of their training :-

(1) Other things being equal, a trained apprentice should be given preference over direct recruits,.

(2) For this, a trainee would not be required to get his name sponsored by any Employment Exchange. The decision of this court in Union of India Vs Hargopal, AIR 1987 Sl. 1227, would permit this.

(3) If age bar, would come in the way of the trainee, the same would be relaxed in accordance with what is stated in this regard, if any, in the concerned service rule. If the service rule be silent on this aspect, relaxation to the extent of the period for which the apprentice has undergone training would be given.

(4) The concerned training institute would maintain a list of the persons trained year wise. The persons trained earlier would be treated as senior to the persons trained later. In between the trained apprentices, preference shall be given to those who are senior.

13. In so far as the cases at hand are concerned, we find that the Corporation filed an additional affidavit in C.A. Nos. 4347-4854 of 1990 as desired by the Court on 20 th October, 1992 giuing position regarding vacancies, in the posts of conductors and clerks. If such post be still vacant, we direct the Corporation to act in accordance with what has been stated above regarding the entitlement of the trainees. We make it clear that while considering the cases of the trainee for giving employment in suitable posts, what has been laid down in the Service Regulations of the Corporation shall be followed, except that the trainees would not be required to appear in any written examination, if any provided by the regulations. It is apparent that before considering the cases of the trainees, the requirement of their names being sponsored by the Employment Exchange would not be insisted upon. In so far as the age requirement is concerned, the same shall be relaxed as indicated above.
